Meet The Basic Demands Of General Surgery

HFEOT99X Electric Operating Table

Developments made in the conjunction with doctors: this is one of the basic principles which has made TECHARTMED the world market leader for operating tables. Close cooperation and years of experience have resulted in tried and tested products which facilitates the work in the operating room and help to increase the safety and comfort of the patient.

Best example: this table can withstand even extreme loads in any position. The structure enables it to be adapted to match the size of the patient and in no time at all it can be equipped for any surgical discipline. A longitudinal shift of up to 350mm makes the operating table even more versatile.

WHY CHOOSE US

Details

1. Longitudinal shift: the longitudinal shift of up to 350mm enables optimum access with the C-arm without needing to reposition the patient or to reverse the positioning of the patient. Each selected fluoroscopy point may easily be moved in front of or behind the column and ensures comfortable access to the patient from initiation to surgery.
2. It can easily be moved to any desired position as four castors.
3. Leg plate: imported gas spring for easy controls.
4. Two joint head plate.
5. Built-in kidney bridge.
6. Double control system.
